TESTAMONIES

My grandchildren and I attended the Gala Creating Trailblazers for the Future. It was better than I thought it might be because the weeks before the event I was talking to my oldest grandson a lot about just doing the right thing in life no matter what the situation is. So the week of the Gala was rough!!!! I started not to bring him but the spirit told me to bring him along and I did. My God knows that he needed to get what was for him. It seemed as if the entire PowerPoint presentation was about him and everything he had gone through that week. Normally my grandson would not have been paying attention but I noticed that he was into everything the speaker was saying.

So, when we got home my grandson came up to me and said he felt as if he was talking about him the whole time and he couldn't stop looking and listening, and he wanted to go to church. My eyes were filled with tears because all of that week I had been trying to get him to understand that doing the right thing is just the right thing to do. I have five grandchildren that I take care of and it's not easy and I need him to be a help by just doing the right thing. Thank you so much!

My daughter Ti'Ani Mitchell was the first ten year old to be awarded the S.W.A.T. Award for being a trailblazer. The guest speaker was awesome and he had a wonderful message for the audience. If you missed it, you missed a treat.
